WELCOME TO MIXDES 2024

This year the International Conference "Mixed Design of Integrated Circuits and Systems" celebrates its 31st edition. For the past thirty years the conference has been a unique forum for promoting different approaches to mixed VLSI design and an esteemed venue for presenting multidisciplinary research. This year we meet together in Gdańsk, the beautiful port city in Poland.

MIXDES 2024 consists of plenary lectures, regular and special sessions focusing on recent trends and advances on all aspects of main conference topics, reviewed and selected from all submissions from 25 countries. During the plenary lectures, the following 5 invited papers will be presented:

- **Advanced Silicon Technologies - Design Consequences of Scaling Solutions for Devices** - Dr. Tomasz Brozek (PDF SOLUTIONS, Inc., USA)
- **Energy-Efficient and High-Performance Data-Converters** - Prof. João Goes (Universidade NOVA de Lisboa, Portugal)
- **Exploring Photonic Integrated Circuits - Technologies, Applications and Challenges** - Prof. Ryszard Piramidowicz (Warsaw University of Technology, Poland)
- **Reflections on the First European Open Source PDK by IHP – Experiences After One Year and Future Activities** - Dr. Krzysztof Herman (IHP, Germany)
- **Single Dopant Lithography for the Fabrication of Atomic-scale Devices and Quantum Systems** - Prof. Ivo W. Rangelow (Technische Universität Ilmenau and nano analytik GmbH, Germany)

The program includes two special sessions, aiming at complementing the regular program with emerging topics of interest to the circuit design community:

- **Simulation and Compact Modeling for Process, Device, Circuit and Microsystem Design**
- **Instrumentation and Control for Thermonuclear Fusion**

During the conference two open events will take place:

- **Tutorial “On-chip Infrastructure for Mission-mode Monitoring of Aero-space Applications: Towards Silicon Lifecycle Management”**
- **Joint IEEE EDS Workshop devoted to compact/SPICE modelling and OpenPDK Initiative**

The organisers would like to thank all the distinguished scientists who have supported the conference by taking part in the International Programme Committee and reviewing the contributed papers.

We hope that you will enjoy your visit to Gdańsk and for the next year we invite you to Szczecin, another port city on the western side of Poland.

Yours Sincerely,
MIXDES 2024 Organising Committee

MAIN TOPICS

1. Design of Integrated Circuits and Microsystems

2. Analysis and Modelling of ICs and Microsystems

3. Testing and Reliability
   Design for testability and manufacturability. Measurement instruments and techniques.

4. Power Electronics

4. Embedded Systems
   Design, verification and applications.

5. Medical Applications
   Medical and biotechnology applications. Thermography in medicine.
The conference will take place in:

**Radisson Blu Hotel**
ul. Dlugi Targ 19
80-828 Gdańsk
e-mail: Reservations.Gdansk@RadissonBLU.com

**REGISTRATION**

The standard conference registration fee includes the admission to the conference, a copy of the Book of Abstracts, Conference Proceedings CD-ROM and other conference materials, tourist activities, all lunches, the welcome party, the banquet, coffee and tea during the breaks. To encourage students to participate in the Conference, the student registration fee is available.

The Book of Abstract and other conference materials will be distributed to participants at the registration desk. The Conference Proceedings CD-ROM will be distributed to the participants after the conference.

The registration desk will be located in the conference center. It will be working during the following hours:

- 27 June (Thursday) 07:30 – 13:00 h, 14:00 – 17:00 h
- 28 June (Friday) 08:00 – 13:00 h

**GENERAL INFORMATION AND INQUIRIES**
THE CITY OF GDAŃSK

Gdańsk is located in the north of Poland, on the coast of the Baltic Sea. It is the largest city in the country in terms of area. Gdańsk is the center of the maritime economy with the second largest commercial port in the Baltic Sea. Gdańsk currently has approximately 500,000 inhabitants and is the center of the Tricity agglomeration, together with Gdynia and Sopot.

The history of this city dates back a thousand years. Its identity has been shaped over the centuries under the influence of many cultures. Gdańsk was the largest city of the Polish-Lithuanian Commonwealth, a royal and Hanseatic city, it had the right to actively participate in the act of electing the king, and in the 16th century it was the richest city in the Polish-Lithuanian Commonwealth. In the interwar period, i.e. in the years 1920–1939, there was an autonomous city-state, the Free City of Gdańsk, under the protection of the League of Nations. This city is considered the site of the outbreak of World War II and the birthplace of Solidarity, which overthrew communism in Poland.

The location of the conference allows you to get in a few minutes to the Old Town, to the Gothic churches, museums, and a multitude of cafes, pubs, clubs, restaurants and stores.

TOURIST ACTIVITIES

For over a thousand years, Gdansk has been the centre of science, culture and art in Poland and our city sightseeing tour is a fine introduction to this historical city.

The city is renowned for its numerous old churches, including the Gothic St. Mary’s Church, which is a Brick Gothic Catholic church located in central Gdańsk. With its volume between 185,000 m$^3$ and 190,000 m$^3$, it is currently one of the two or three largest brick churches in the world.

Gdańsk Main Town Hall is a historic place located in the Old Town. It is one of the finest examples of the Gothic-Renaissance historic buildings in the city, built
at the intersection of Long-Lane Street and Long Market, in the most popular part of Gdańsk. The History Museum of the City of Gdańsk is located in his Town Hall.

Our tour will begin with a walk along the Long-Lane Street, which is one of the most notable tourist attractions of the city. There we will see the Golden Gate to the Long Market, and the Green Gate, which forms part of the Royal Route. Furthermore, we will see Neptune’s Fountain there, which is a historic fountain in Gdańsk, a mannerist-rococo masterpiece, and one of the most distinctive landmarks of the city. Afterwards, we are going to visit Gdańsk Main Town Hall there. Then, we will walk along waterside promenade, stretching along the western bank of the Motława River, and St. Mary’s Street. Finally, we will visit the Gothic St. Mary’s Church. As a part of the tour, we will take part in amber processing demonstration combined with Goldwasser Tasting.

**TRANSPORT**

Gdańsk can be reached by train or road, you can also use Gdańsk Airport connecting the city with many of European destinations (see https://www.airport.gdansk.pl/). It is served by three public-transport bus lines: 110 and 210 and one night line: N3. The public transport bus stations are located opposite the Passenger Terminal, next to P1 car park. Tickets for the buses can be purchased at the ticket machine placed at the bus stops, payment is possible in cash or with payment cards. Tickets can also be purchased via mobile applications (GoPay, jakdojade.pl, moBiLET, mPay, SkyCash, zbiletem.pl). Gdańsk may also be reached by taxi which may be ordered online (see https://neptuntaxi.pl). If you plan traveling to Gdańsk by train, please go to https://rozklad-pkp.pl/en for up-to-date train availability and purchasing the tickets.

To move around Gdańsk you can use the city public transport. Tickets are valid for the specific period of time - in case of change one does not have to use second ticket, except for the single fare tickets (for additional information about public transport see https://ztm.gda.pl/). The trip may be planned using Google Maps.

If you plan using taxi to travel in Gdańsk, we recommend using corporate taxis, which may be requested by a phone call:

- Neptun Taxi, https://neptuntaxi.pl/, phones: +48 585 111 555, +48 800 170 700
- Halo Taxi: https://hallotaxi.gda.pl/, phones: +48 58 19 666, +48 781 819 666

UBER and BOLT also operates in Gdańsk, which can be ordered via dedicated applications.
PROGRAMME OF THE CONFERENCE

The programme of the MIXDES 2024 Conference will include oral presentations of contributed and invited papers and special sessions. Except for the plenary sessions, the programme of the conference will be divided into three parallel sessions, in accordance with discussed topics. The language of the Conference is English, neither translation nor interpretation will be provided.

The time of oral presentations:
- invited papers: 20-25 min. for presentation and 5-10 min. for questions,
- regular papers: 15 min. for presentation and 5 min. for questions.

Lunches:
Lunches will be served each day at the conference center at the times indicated in the programme.

Welcome Party and Conference Banquet:
The Welcome Party will be organised on Thursday (the first conference day) at 19:00. The Conference Banquet and the Closing Ceremony will take place on Friday at 19:00. Both events will take place at the conference center.

BANKING

Foreign exchange facilities are available at major airports and at larger hotels, as well as in many private offices, called “Kantor”. Credit cards can be used in most of the places such as banks, hotels, car-rental offices, restaurants, and shops. Approximate currency exchange rate: 1 € = 4.29 PLN, 1 $ = 3.94 PLN (for the up-to-date information refer to http://www.nbp.pl).

Credit cards:
Visa and MasterCard are the most common cards. However, other cards might be accepted.

Currency:
Generally, everywhere in Poland you pay in Polish zlotys. The currency units are zloty (zł, PLN) and grosz (gr), 1 zł = 100 gr. The Polish zloty is a fully convertible currency internally in Poland.

WEATHER

June in Poland is generally sunny, with some showers, the temperatures can be typically 15 to 28 °C during days. During nights, the temperature can go down to 8-10 °C. So, we can suggest you to bring summer clothes, with a quite warm jacket or pullover, and an umbrella.

D. Makowski (Lodz Univ. of Techn., Poland)

15:20 Coffee Break

15:40 Special Session II (Part 2): Instrumentation and Control for Thermonuclear Fusion
Chairman: Dr. Stefan Simrock

*Imaging Diagnostics and Control for W7-X*
A. Winter (Max Planck Inst. für Plasmaphysik, Germany)

*Update on the ITER Visible and IR Viewing Systems*
V. Martin (ITER Organization, France)

*Application of Artificial Intelligence Methods for Nuclear Fusion Machine Protection*
B. Jabłoński, D. Makowski (Lodz Univ. of Techn., Poland), A.P. Sitjes, M. Jakubowski (Max Planck Inst. for Plasma Physics, Germany)

*100 Gbps Network Connection Performance Evaluation for Data Archiving Purposes*
M. Orlikowski (Lodz Univ. of Techn., Poland)

*Digital Fast X-ray Detection Systems for Industry and Scientific Experiments*
P. Gryboś (AGH Univ. of Science and Techn., Poland)

19:00 Welcome Party
13:00  Lunch

14:00  Special Session I: Simulation and Compact Modeling for Process, Device, Circuit, and Microsystem Design
Chairman: Dr. Daniel Tomaszewski

*Influence of Parasitic Capacitances and Inductances in a Power Electronic Converter on Junction Temperature of Power GaN HEMTs*
P. Górecki, D. Ahmed (Gdynia Maritime Univ., Poland)

*SPICE-Characterisable Stochastic Model of SRAM Bitcells in Retention Mode*
L. Van Brand, J.-C. Delvenne, D. Flandre (Univ. Catholique de Louvain, Belgium)

*FOSS EKV3 Charge-based MOS Transistor Model: An Engineering and Educational Tool*
M. Bucher, N. Makris, L. Chevas (Tech. Univ. of Crete, Greece), W. Grabinski (MOS-AK, EU)

*A New Approach to Modeling Charge Transport in the MOSFET "Pinch-off" Region - Preliminary Results*
D. Tomaszewski (Łukasiewicz - IMiF, Poland)

*AI Algorithms for Plasma Particle Tracking*
M. Schwarz (TH Mittelhessen Univ. of Applied Sciences, Germany), N. Dormagen, M. Klein, S. Pappert (TH Mittelhessen Univ. of Applied Sciences and Justus Liebig Univ. Giessen, Germany), A.S. Schmitz, M.H. Thoma (Justus Liebig Univ. Giessen, Germany)

15:20  Coffee Break

15:40  Joint IEEE EDS Workshop

19:00  Welcome Party
